

MRS. CONKLIN'S TOP CHOICES FOR KARAOKE DOWNLOADS:

1. iTunes
2. <http://www.karaoke-version.com/>
 - Please note that this is an overseas website. Some credit card companies will charge you a \$.05 fee on top of the price of the download. I have used them several times and have been very happy with the quality and selection of their tracks. I have never had any problems or been charged any hidden fees.
